

The FCC should not implement
any proposal that would lessen
Indiana's Telephone Privacy law
protections.

Indiana's Telephone Privacy law
has improved my time at home by reducing the number of
unwanted calls.

Indiana's law has been effective in reducing the
number of calls bay over 90%. My calls have been reduced from 10 per week to
less than one.

I think personal privacy (especially during family time) is very important due
to the amount of time spent on the job.
